

Reptile

Atomizer

She spreads herself wide open to let the insects in
She leaves a trail of honey to show me where she's been
She has the blood of reptile just underneath her skin
Seeds from a thousand others drip down from within

 Oh my beautiful liar

 Oh my precious whore

 My disease, my infection

 I am so impure

 Give in

Devils speak of the way in which she'll manifest
Angels bleed from the tainted touch of my caress
Need to contaminate, to alleviate this loneliness

 I now know the depths I reach are limitless

 Oh my beautiful liar

 Oh my precious whore

 My disease, my infection

 I am so impure

 Ohh

 Ohh

 Oh my beautiful liar

 Oh my precious whore

 My disease, my infection

 I am so impure

 Oh my beautiful liar

 Oh my precious whore

 My disease, my infection

 I am so impure
