

Madame La Mort

Newhaven

You're safe now they said
with a gun to her head
as they're dying to know the truth
Madame la Mort, who I kindly adore
to ponder your fountain of youth
You're not like the others
I see past your colors
and I know there's no place you'd rather be
Than locked in a cell, do your thoughts cycle hell?
I find it humorous the host let you live

Somebody, someone tell me somethin
Am I talking to myself here?
Do my words cut through the atmosphere?
Can you not hear me when I call your name?
The look on her face is everything but tame

Oh! Do I know you have I seen you before
Ignorance is bliss but dÃ©ja vu hurts more
Oh love, give me something to believe

Push a little harder dear I can't seem to find
the climax of the story where you infest my mind
If patience is a virtue, then hell I've got all year
so go fulfill your prophecy and whisper it into my ear

Time is your mistress, your love and your curse
The fountain hides the truth your life's just a blur
So how does it feel to be all alone?
Oh really? I'm sorry, well this is your home

Oh! Do I know you have I seen you before
Ignorance is bliss but dÃ©ja vu hurts more
Oh love, give me something to believe

I am done with all your lies
I can look right past your eyes
you stare at me like a newborn child waiting for my great demise
I can feel right past the skin, laugh as the walls start caving in

the story gets bigger and bigger everytime and I'm done

So sick of walking with demons
everywhere that I go
I can't seem to find my way out of this hell that you call your home
Hands up! Cause this one's for you
It was all dÃ©ja vu

Oh! Do I know you have I seen you before
Ignorance is bliss but dÃ©ja vu hurts more
Oh love, give me something to believe

Oh! Do I know you have I seen you before
Ignorance is bliss but dÃ©ja vu hurts more
Oh love, give me something to believe

Just stay away from me
Just stay away from me
Just stay away from me
Just stay away from me

Madame La Mort, Oh I kindly adore, the truth
