Electricity

Nonpoint

Time in the frequency The whole world is listening From the wild west stories North pole, south pole and everywhere in between The way it takes over me Like the power of a lightning bolt I let it on me, move me Makes me feel like I'm out of control Take it over (it's electricity) Take it over me Take it over (it's electricity) Take it over me Take it over me (it's electricity) Take it over me (it's electricity) Take it over me Second of complicity All the years of my memories Every stop in every city, Every bar every state and everything in between Every getaway story that I know Every path that I let go All the ants in the street Places full of people

Take it over (it's electricity)
Take it over me
Take it over (it's electricity)
Take it over me
Take it over me (it's electricity)
Take it over me (it's electricity)
Take it over me
Take it over me
Take it over me
Take it over me
You're only (you're only)
Strong as you let you become
You're only (you're only)
You're only (you're only)
Strong as you let you become

Sending me out of control

Take it over (it's electricity)
Take it over me
Take it over (it's electricity)
Take it over me
Take it over me (it's electricity)
Take it over me (it's electricity)
Take it over me
Take it over me
Take it over me
