

I Feel No Pain

Diamond Head

Crazy fool I was twisted
jaded it's a crime to see
It's a desperate proposition
you wouldn't let it be
A crazy fool I was wasted
tainted my mind not my own
In a state of disillusion
and I'm a long way from home
You know it really doesn't matter to me
You know it really doesn't matter to me
Doesn't matter what the future will be
Cause it really doesn't matter to me,
no Damn you fool
hatred fixated is this really me
In a void of paranoia
tell me what you see
Damn you fool
created elated this thing inside my soul
I've gotta fight this demon
before it takes control
You know it really doesn't matter to me
You know it really doesn't matter to me
Doesn't matter what the future will be
Cause it really doesn't matter to me
Let the rain come
wash away my pain
Let the rain come
wash away my pain
Oh I don't feel no pain
Oh I feel no pain
Crazy fool I'm wasted
tainted my mind was not my own
In a state of disillusion
I'm a long way from home
You know it really doesn't matter to me
You know it really doesn't matter to me
Doesn't matter what the future will be
Cause it really don't matter
Let the rain come
wash away my pain,
Let the rain come
wash away my pain
Oh I don't feel no pain
Oh I feel no pain
