

Why Can't It Be

Tamia

Hurry up and make a move do somethin'
I'm tryin' to leave
I'll admit, you got me jacked up thinkin'
You're comin' with me Every time I see you look in my direction
I wanna find a way to get your attention
Come over say somethin'
I need to know Why can't it be?
'Cause I've been lookin' for that special guy
Why can't it be?
You've been lookin' for that special girl Baby, why can't it be?
That you and me
You'll be all that I'm thinkin' about
And I'll be all, all you're dreamin' of I see ya lookin' on the down low
And ya makin' me smile
I can't think about nothin' else, baby
You're drivin' me wild Wanna find a way to get your attention
Baby, look at me in all of my dimensions
I need to know somethin'
Tell me, what's up? Why can't it be?
'Cause I've been lookin' for that special guy
Why can't it be?
You've been lookin' for that special girl Baby, why can't it be?
That you and me
You'll be all that I'm thinkin' about
And I'll be all, all you're dreamin' of Couldn't we be more than just friends?
Or we could chill and just see what happens
We don't have all night to drag this thing out
I gotta know from you, say you want me too Why can't it be?
'Cause I've been lookin' for that special guy
Why can't it be?
You've been lookin' for that special girl Baby, why can't it be?
That you and me
You'll be all that I'm thinkin' about
And I'll be all, all you're dreamin' of Why can't it be?
'Cause I've been lookin' for that special guy
Why can't it be?
You've been lookin' for that special girl Baby, why can't it be?
That you and me
You'll be all that I'm thinkin' about

And I'll be all, all you're dreamin' of
