

Shopping

Super Sister

I want that, that, that and that
One in red and one in black
Gift wrapped if you please, don't forget accessories
Please, please, pretty please I want another one of these
If you save for when it rains, you'll see our love go down the drain
And you won't get a second look
If you don't put your signature on that cheque book

Cos we're going shopping
You'd better bring along the bank, we're gonna break it
We're going shopping
As fast as you can make it we are gonna take it

I want this, this, this and this
That might just be worth a kiss
Then take me to the second floor and i'll give you a little more
When we're on the elevator thinking what we're doing later
I know it really sounds so corny, shopping really makes me horny
And all you do is stand and stare
When we walk out the changing rooms in underwear

Cos we're going shopping (spending all your money)
You'd better bring along the bank, we're gonna break it
We're going shopping
As fast as you can make it we are gonna take it

When the going gets tough, the tough go shopping
The girls are back in town, and there ain't no stopping
Cheque, credit card or cash, we don't care so please don't ask
We wanna go S- H-O-P-P-I-N-G, we wanna go S-H-O-P-P-I-N-G

Cos we're going shopping (spending all your money)
