

# Lights On

## FKA twigs

I shy away in my mind  
In hopes in that I could share this place with you  
    You?ll be the first one to find  
The shadows that make the girl you undo  
    Cause the man that you are is to find  
    By the way you act in the light  
        Break or seize me  
If the flame gets blown out in the shine  
    I will know that you can not be mine  
        Never leave me

[Chorus x2:]

When I trust you we can do it with the lights on  
    When I trust you we can do it with the lights on  
    When I trust you we?ll make love until the morning  
Let me tell you all my secrets and I?ll whisper ?til the day?s done

    Break or seize me  
    Let the things that I tell you survive  
    In the way that you handle your size  
        Never leave me

[Chorus x4]

---
