I Will Restore

So you made some mistakes that
You wish you could take back
Yesterday's gone but it's hard to move on
When you live with regret
You can't seem to forget
And it plays like a song
that won't end in your head

You're not what you did
No, you're not what you've done
You're my son and there's more to come
You're not what you did
No, that's not who you are
You're my daughter
and I am your God

I will even give you back the years
That your sins stole from you
I will restore, yes, I will restore!
I will even give you back the years that your sins stole from you!
I will restore, yes, I will restore!

Verse 2
I am the God of all Mercy
Favor that you don't deserve
And I am the one that gave up His own Son
To show you just how much you're worth

And I love you too much
to spend the rest of your life
Reminding you of what you didn't do right
Cause you're not what you did
No, you're not what you've done
You're my son and there's more to come
you're not what you did
No, that's not who you are
you're my daughter

and I'm your God

I will even give you back the years that your sins stole from you
Choir: I will restore, yes I will restore!
Lead: I will even give you back the years that your sins stole from you.
Choi:I will restore, yes, I will restore!
Lead Hey, Choir yes I will restore

Lead: Wait til you see what I do with the rest of your life
going to bless you so much that you will never again look behind
Yeah! Wait till I see what I do,
what I do with you
Said I'm going to blow your mind
I'm going to blow your mind (choir repeats)
I'm going to blow your mind

Wait til you see what

Choir. Oh, wait til you see what I do what to do with the rest of your life
Lead I'm giving you a brand new day I'm giving you a brand new day

Choir I'm going to bless you so much that you'll never again look behind

Lead: You'll never never look behind
Choir: Oh wait till you see what I do
with you

Lead: Get ready for the best days of your life
Choir and lead (call and repeat)
I'm going to blow your mind
going to blow your mind
I'm going to blow your mind
I'm going to blow your mind
Wait til you see what I do this time
I'm going to blow your mind
no more regrets no more regret
I'm not through with you yet

I will even give you back the years

Oh, its not too late.
I will restore!

Speaking in tongues
Mmmm,
Spoken word: I know you made some mistakes. And you think you'll never be able to recover from that

mistake. You lost a lot of things but God's gonna to bring it back to your life. He's not through with you yet. He's going to use you. Oh, He doesn't want you living with regret cause your best days are coming! Your best days are yet ahead! Listen, said

I'm giving it back.

Choir pick back up: I'm giving it back.

Lead: Oh I'm giving it back. The years
Choir: the years

Vamp: Oh, I'm giving it back. I'm giving it back. Oh I'm giving it back. The years.

I'm giving it back I'm giving it back

Everything I lost the years
Oh, I'm giving it back I'm giving it back yeah I'm giving it back the years
What you lost
your peace of mind
your destiny
Your dedication
Your occupation
the years you lost
Your opportunity
your family
I'm giving it back
