

# Headlights

## Montgomery Gentry

Everybody knows when the summer gets hotter  
Everybody goin' on down by the water, chillin'  
Nothin' gets rocking 'til the clock says midnight  
Catch a buzz on a honeysuckle moonlight  
Shotguns, girlfriends, coolers full of cold cans  
Follow those headlights  
Down a broken fence line  
Take it to the riverside  
Point 'em through the red dust  
Keep it in the tire ruts  
If you wanna find us  
Wanna go all night, hell yeah that's right  
Follow those headlights  
Got a girl in a tee and cut-offs shakin'  
Around here we call that summertime naked  
Yeah, shake it  
Got bottoms up boys, hats on backwards  
Hittin' it hard, says to park them tractors  
Got Hank up on 10, if you can't hear him  
If you can't hear him  
Follow those headlights  
Down a broken fence line  
Take it to the riverside  
Point 'em through the red dust  
Keep it in the tire ruts  
If you wanna find us  
Wanna go all night, hell yeah that's right  
Follow those headlights  
Follow those headlights, yeah  
Follow those headlights  
Down a broken fence line  
Take it to the riverside  
Point 'em through the red dust  
Keep 'em in the tire ruts  
If you wanna find us  
Wanna go all night, hell yeah that's right  
Follow those headlights  
Follow those headlights, yeah
