

# Neon Signs (feat. Stro)

Mr. J. Medeiros

With her eyes on glow  
With her mind on show me the way  
With her body lines like neon signs  
The last time she shined this door way  
I was too young to know  
I was too sprung to grow  
I was 21  
I was but a loaded gun  
I tried to hold her to show the sun  
But then she said go  
Then I escaped like capes out penthouse windows  
The day came later then fate  
Could have catered the bate  
I laid in a state of bent out limbo  
And now I'm lost in the way she found me  
And now that's costing me the strength I have  
Somehow she's softer then the day she left me  
And found I'm a harder game to play at last  
I made my way up out the heartache  
To find you telling me you miss me  
You stated your claim you made it your heartbreak  
You hated to say how you felt when you were with me  
And now you're here, like years, like tears describe  
Like leer appears in eyes  
My sight like near to blind if I hear your side  
But hey, you make me feel alive, fear my prideTake me  
Make me feel alive  
Oh no  
Take me  
Here in your arms  
I'm gone  
Oh my love don't follow me  
I'm gone  
Oh my love don't follow me  
I'm gone  
Oh my love don't follow me  
Just goAnd here she stands  
With her plans as hidden as her shoulders  
Till the strap of her blouse falls over

Now I'm trapped in her mouth  
I told her  
With my tongue like hands that hold her  
On her words I'm drunk she's sober  
She drives my life with truth and lies  
It's do or die  
She runs me over  
The night arrives  
I'm colder  
I like her disguise  
But I know her  
And now that I've realized this time she spends is mine  
I don't owe her  
Throws her purse to the floor  
She turns from the earth to the shore  
She burns her worth for more  
She's working for  
She's hurting for  
This shows her how we deserve each other  
Only the light of the sun will tell  
If in the day we desert each other  
Then in the night we had run its spell  
And In the sight of our bodies leaving  
The only space that was near our side  
We will say with our hearts  
Still beating  
I'm still alive  
Fear my pride Take me  
Make me feel alive  
Oh no  
Take me  
Here in your arms  
I'm gone  
Oh my love don't follow me  
I'm gone  
Oh my love don't follow me  
I'm gone  
Oh my love don't follow me  
Just go
