

All Over Me

Graham Coxon

Hey, when we showered
And I fainted on the floor
I was free swimming in light
You were so scared You washed my hair
In bright red water
You really thought
I was dead I know why you make me so scared
You're all I can see
You speak and my hearing's impaired
You're all over me Late in your bed
You held my head for a while
Said goodnight and flew away
