

# Joyride

Lalaine

Late night cruisin', rollin', groovin'  
Can't get there quick enough  
But I've got you in my sight In the fast lane, I'm crazy, insane  
Wanna get real high on life  
With you here by my side [Chorus:]  
We're getting faster than the speed of light  
Soon you'll be seeing it through my eyes  
We're passing all the world that's standing still  
Ooh, we're goin' on a joyride No speed limit in this moment  
Got a few things on my mind  
That I'd like to share with you (See) things look clearer  
From a rear view mirror  
Yesterday is in the dust  
We've got some travelin' to do [Chorus] [Bridge:]  
Everything we ever dreamed  
Down this long and winding road  
Could soon be ours  
Who cares about the destination  
Heaven only knows [Chorus] Oh yeah, faster than the speed of light I feel so alive and on the edge  
Chasing all these dreams might seem illogical  
I'm about to fly steppin' off the ledge  
It's the only way to live it feels so radical
