There Goes My Dream

Mark Collie

There goes my dream, walking down the street
With somebody new there goes my dream
I love her so, she will never know
What she means to me, there goes my dreamI was dreaming of happiness, a life of togetherness
No more of this loneliness, a love without end
There goes my dream, walking down the street
With somebody new there goes my dreamI was dreaming of family, of her growing old with me
Sharing the memories of a wonderful life
I was dreaming of all the things that true love was gonna bring
I could have done anything with her by sideFor there goes my dream, walking down the street
With somebody new there goes my dream
I love her so, she will never know
What she means to me, there goes my dream
