

# Victory

## Daan

Victory  
For you and me  
Both of us victorious  
Ain't it plain to see  
You belong to me  
Victory for you and me  
Both of us victorious  
Ain't it plain to see  
You belong to me

I can never understand it  
We got stuck before  
Now our faces faith  
And nails cry for more  
Then all the girls guys  
Waiting by the neverend road  
We ain't old we ain't cold  
We ain't sold  
To lower kings baby  
I know a way to escape  
The little parade  
The offer I make  
You ain't the kind to go  
Refuse it loose it  
But that was just a start  
Because my arrows are more sharper  
Than a cain child brain child  
It's a fucking peace trial  
Not like a song you heard before  
We never knock on any door  
Together we can gather  
All the tools to split the core  
So baby we're gonna nail any cross  
Undo any loss because  
I want you to be  
My little orphan morfine  
Morphing our thing

We're heading for a

Vicotry for you and me  
Both of us victorious  
Ain't it plain to see  
You belong to me  
We're heading for a  
Vicotyr for you and me  
Both of us victorious  
Ain't it plain to see  
You'll make love to me

I can learn how to adore you  
If you can learn how to be loved  
Don't look back  
Just look before you to victory  
Victory for you and me  
Both of us victorious  
Ain't it plain to see  
We'll make history
