

# Gap Life

## Dick Diver

I don't know if it was a gap year  
Or a gap life  
But there wasn't much going on between channel 2  
And channel 9  
So I went back to the beginning  
Without rising from my seat  
& wondered about everything  
That happened to me  
  
& if you didn't cry then you might laugh  
Watching all the days drive by  
In their slow cars  
Would I get my bond back baby  
If I drove away from here?  
I turn my lemons into slices & I put them in my beer  
& I go

Security lights  
They flash & then go  
I'll buy a new TV  
When the old one gets old  
'Cause today tonight  
Will be gone tomorrow  
Then it's on again  
& on & on again

---
