

In a World of Our Own

Yes

What's wrong with a new revolution?
Who's playing God on any given day?
What would you put your soul so much pressure
Here we go again
Where were you when I needed you?...
I was caught up in a crazy whirlwind
Then I saw your face in the crowd
You were somebody else then, somebody else then Why must you always lie to me?
One big mistake
We're heading to heartbreak
You can whet your appetite anywhere
As long as you do your cooking at home Right back where it began
Why can't we be like we were then?
Living in a world of our own
Living in a world of our own
Living in a world of our own
Living in a world of our own
In a world of our own What's right about a false evolution?
Must be lonely playing God all the while
About time you hail a taxi for that ego
You're in a world all your own
World of your own
World of your own
Bleeding heart case made the headlines
Tomorrow lining every waste bin
You have to go and reinvent a rainy day
I was left out in the cold
Then stuck out in the rain again Why must you always lie to me?
I know for sure you're gonna reap what you sow
You can whet your appetite anywhere
As long as you do your cooking at home Right back where we began
Why can't we be like we were then?
Living in a world of our own
Living in a world of our own
Living in a world of our own
Living in a world of our own In a world of our own
In a world of our own
In a world of our own
In a world of our, in a world of our own

In a world of our, in a world of our own
Living in a world of our own
Living in a world of our own Right back where we began
Why can't we be like we were then?
Living in a world of our own
Living in a world of our own
Living in a world of our own
In a world of our own
