So you say

The Merricks

If I ask you to follow me around
Button up your mouth, I want to be clear with you
If I ask you to drive me here to there
You?ll do everything but what I need from you
You say you will not love me
You say you cannot love me
So you say you never loved me
So you say, so you say, so you say, so you say
You say you will not love me
You say you cannot love me
So you say you never loved me
So you say, so you say, so you say, so you say
If I ask you to jump, "How high?" is what you say
A dancing bear for me but I wanted more from you
If I hit you hard like elementary school
Not sure of what you?ll do, I want to be with you
You say you will not love me
You say you cannot love me
So you say you never loved me
So you say, so you say, so you say, so you say
You say you will not love me
You say you cannot love me
So you say you never loved me
So you say, so you say, so you say, so you say
I can scream real loud
(I am the banshee)
Tare down a building
(I am the debris)
Climb up a mountain
(I am the sky)
Make you feel good
(I am the supply)
Can I change you?
(I am the clay)
Will you love me?
(But you say)
But you say
So you say, so you say, so you say, so you say
You say you will not love me

You say you cannot love me
So you say you never loved me
So you say, so you say, so you say, so you say
You say you will not love me
You say you cannot love me
So you say you never loved me
So you say, so you say, so you say, so you say
