

The Daily Drumbeat (feat. Bouke Zoete)

Happy Camper

We never thought you would be a traitor
Always agreeing saying something else later
You never really did anyone a favor by
ignoring every beat of the drum We never thought you would be unable
Having a laugh putting food on the table
You used to be so steady and stable but the rhythm was a little too fast And now you're easily upset whenever
traffic lights are red
And the milk has gone bad, a troubled head is what you get
And the beating don't seem to end Well you gotta come along cause the drumbeat is going on
Make up your own song while the drumbeat is going
If it's never gonna stop the drumbeat will beat you up Come along cause the drumbeat is going on
Make up your own song while the drumbeat is going
If it's never gonna stop the drumbeat will beat you up Come along cause the drumbeat is going on
Make up your own song while the drumbeat is going
If it's never gonna stop, well the drumbeat will beat you up
(will beat you up) Well you gotta come along cause the drumbeat is going
Gotta come along cause the drumbeat is going on Well, you gotta come along when the drumbeat is going
on Well you gotta come along cause the drumbeat is going
gotta come along cause the drumbeat is going (whoa, you gotta come along) on
