Midnite Dynamite

Kix

I'm a time bomb, it's time that I explode
Waited so long for moonlight overload
You are the only target, I always hit my mark
Let's get the fire started, our sparks will light the darkMidnite dynamite
I'm midnite dynamite
Our sparks they will ignite
I'm midnite dynamiteI'm a land mine, it's time you fall on me
I'm a dead eye, damnation guaranteed
We are the late explosion, 200 decibels
The danger, emotion, I hear the clock strike 12Midnite dynamite
I'm midnite dynamite
Our sparks they will ignite
I'm midnite dynamiteSometimes daytime lasts too long
Midnite heart beats loud and strong, come onYou are the only target and I always hit my mark
Let's get the fire started, our sparks will light the darkMidnite dynamite
I'm midnite dynamite
Our sparks they will ignite
I'm midnite dynamiteMidnite dynamite
I'm midnite dynamite
Our sparks they will ignite
I'm midnite dynamite
