Path, Vol. 2

Apocalyptica

Advisory - the following lyrics contain explicit language:

I want to live in fire
With all the taste I desire
It's all good if you let me dive
With some sharks undergroundYou lose your routine
You lose your routine
You lose your routine
'Cause I found my pathWhat the hell are you trying?
Now I know there is something more
What happened to you?
Still staying on my path
Are you still denying?
Now I know there is something more
That this is the truth
It's all in youWhat do you came for
What did you expect to find?
What do you life for
What did you expect to find ?What do you life for
What did you expect to find ?
What do you life for
What did you expect to find ?So boundless I feel
And boundless all my fears
Stop running back to old times
Stop running back to old timesYou lose your routine
'Cause I found my pathWhat the hell are you trying?
Now I know there is something more
What happened to you?
Still staying on my path
Are you still denying?
Now I know there is something more
That this is the truth
It's all in youWhat the hell are you trying?
Now I know there is something more

What happened to you?
Still staying on my path
Are you still denying?
Now I know there is something more
That this is the truth
It's all in you
