

# Thunder

## The Runaways

(M. Anthony/K. Krome) When the moon is out it starts to shine  
Thunder crashes want to make you mine  
The sky lights up in my mind  
Fireworks between us you'll find And its thunder  
The spell that I'm under  
It's thunder  
I see lightning crash  
And its thunder  
Oh how our love flashes  
It's thunder  
Don't need no other feeling All the others their just the same  
But oh my baby your a hurricane  
Let me be your battered angel  
So you can be my tattered devil And its thunder  
The spell that I'm under  
It's thunder  
I see lightning crash  
And its thunder  
Oh how our love flashes  
It's thunder  
Don't need no other feeling Your my teenage fire  
That's in my heart  
Now our flaming love is gonna start  
Oh its gonna start
