Thunder

The Runaways

(M. Anthony/K. Krome)When the moon is out it starts to shine
Thunder crashes want to make you mine
The sky lights up in my mind
Fireworks between us you'll findAnd its thunder
The spell that I'm under
It's thunder
I see lightning crash
And its thunder
Oh how our love flashes

It's thunder

Don't need no other feelingAll the others their just the same
But oh my baby your a hurricane
Let me be your battered angel
So you can be my tattered devilAnd its thunder
The spell that I'm under
It's thunder
I see lightning crash
And its thunder

It's thunder

Don't need no other feeling Your my teenage fire

That's in my heart

Now our flaming love is gonna start

Oh its gonna start

Oh how our love flashes
