

# Sunshine (Come On Lady)

**Josh Rouse**

Forget all your little problems  
Forget the boy you left at the bar  
I got a stash been savin' for months now  
California's not very far  
Come on lady  
Take this bum and make him right  
You're my steady  
You're the one who makes me feel  
Sunshine One that makes me feel sunshine  
I want to be your baby daddy  
I want to be your self-employed  
So pack up the van and we'll go drivin  
To the coastal state  
Uh-huh  
Come on lady  
Take this bum and make him right  
You're my steady  
You're the one that makes me feel  
So come on lady  
Give this bum a sense of pride  
You're my steady  
You're the one that makes me feel  
Feel  
Sunshine One that makes me feel sunshine  
One that makes me feel sunshine  
One that makes me feel sunshine
