

Night Life

[Willie Nelson](#)

When the evenin' sun goes down
You will find me hangin' 'round
The night life ain't no good life
But it's my life Many people just like me
Dreamin' of old used-to-be's
And the night life ain't no good life
But it's my life Listen to the blues they're playin'
Listen to what the blues are sayin' Mine is just another scene
From the world of broken dreams
And the night life ain't no good life
But it's my life
The night life ain't no good life
But it's my life
