Symmetry
Carbon Calcium Blood
Find Your Own Disease
Excellent Breeding Left You Without One
Try To Be At Ease
They're Staring Daggers At You
But You'll Get Your Piece
You'll Take The Down One By One
Walk
Symmetry
Your Infrastrucure Is Planned
Time To Cut Designs
Every Threads In Place This Time
Now You Understand
The Competition Is stiff
Got The Upper Hand
Ready To Strut Your Stuff
Walk

I Would Kill To Have Your FACE
I Would Kill To Have Your BODY
I Would Kill To Have Your SKULL
I Would Kill To Have Your SKIN
Breathless You Pose Burning With Spite
Beauty Is So Crude Contrite
Venom You Bleed Bile Within
Knowing Their Fate Architecht Sin
Twist And Maneuver You've Practiced Your Part
Starving And Hacking You've Created Art
Painfully Limping Now This Is Your Life
Take Them All Down And Raise Up Your Knife
Breathless You Pose Burning With Spite
Beauty Is so Crude Contrite
Venom You Bleed Bile Within
Knowing Their Fate Architect Sin
Now Walk
