

I Think About You

Bryan Adams

I oughta be workin' but I can't concentrate
I oughta be sleepin' instead a' stayin' up late
When I oughta be doing all the things I should do
I think about you I oughta be writin' but I can't find the song
Just sittin' here driftin', driftin' along
There's only one thing that I wanna do
And that's think about you I think about you, I can't get no rest
I think about you, there ain't no one else
It's all I can do, I can't help myself
Yeah, I think about you I could go cruisin' but I've had enough
Yeah, I could go drinkin' but I can't stand the stuff
It just don't do me like it used to do
I'd rather think about you I think about you, I can't get no rest
I think about you, there ain't no one else
It's all I can do, I can't help myself
Yeah, I think about you
Yeah, c'mon Keith I think about you, I can't get no rest
I think about you, there ain't no one else
It's all I can do, I can't help myself
Yeah, I think about you I think about you, I can't get no rest
I think about you, there ain't no one else
Yeah, it's all I can do, I can't help myself
Mmm, I think about you
C'mon I think about you
