

# Anyone Can Tell

## The Heavy Horses

I've been riding hard for three days  
And I can't turn back now  
They sentenced me to hang  
But I slipped away somehow Hell, I'm the best there is  
And that's all you need to know  
Cause I've got outlaw blood  
And I rest this weary soul And I'm trying to cross the border  
Before the sun sets down tonight  
If I keep on riding hard  
I'll be a free man come daylight Hell, I'm the best there is  
And that's what I hear them say  
But I guess I always knew  
That I'd pay my debt someday  
They found me in a little town  
Just outside of Mexico  
I was sold out by a friend  
For a handful of pesos And anyone can tell you  
My guns they were not drawn  
I was murdered down in cold blood  
And left to die at dawn I've been gone 100 years now  
But it seems like yesterday  
That the lawman shot me in the dark  
And stole my life away Hell, I'm the best that ever lived  
I'm a legend among men  
Now every time that pistol fires  
A legend rides again  
They found me in a little town  
Just outside of Mexico  
What happened there that night  
No one will ever know But anyone can tell you  
That I was unarmed  
And anyone can tell you  
That I left that night unharmed
