

# Don't Hold Back (Radio Edit)

## The Potbelleez

(Chorus)

Don't hold back  
Is there anybody out there?  
Feeling something!

Engage me, let me breathe the courage of your actions  
Don't hold back make it before the good  
The truth is, I am not your cure but I can help you  
Find a way to reconcile the dark

Chorus x2

Stay right there, 'cos I want to watch you taking off your morning,  
And putting on that midnight smile for me  
You're chasing, the slow motion belief that you are dreaming,  
And running from the things that make you feel

Chorus x2

---
