Foxtrot

Orchestre International du Vetex

Now I feel something between the two of us
Now I feel your fingertips upon my shoulder
In this selfish age
When nothing comes between us
I feel love for you

Now you know the truth
isn't always true
I feel love for someone like you
Feel
Only want to hear what they say about you
Feel
Only want to hear what I have to tell you
And I tell you true

Now you know the truth
I lied to you
But you tell me all I wanted to know

There's been a few of us I know
And their selfish worlds
When nothing comes between us
Now you know something good must come from something
