

# Persuasion

## Korpse

You got persuasion  
I can't help myself  
You got persuasion  
I can't help myself  
Something about you baby  
Keep me from goin' to somebody else  
Yeah, any way you want now  
Now, now baby  
You put me in a daze  
All the time  
Look whatcha got for me baby  
Like the Devil in disguise

Something about you baby  
You're one, you're one of a kind  
Oh, this spell you put on me  
Has just outdone me, babe  
I can't keep the rain  
From comin' down  
Look out now, I can't get out from under  
But I wouldn't want to even if I can  
Something about you baby  
Make me feel, make me feel like a man
