# Butterfly

## Zox

I tried little butterfly not to hurt you
So I guess that this might come as some surprise
I'm gonna take this train even though I never thought I'd desert you now
I've got a ticket and I'm just biding my time'Cause I don't really want to work it out
No and I can only wonder what you're all aboutI tired little butterfly to protect you
And it was asking for disaster but I guess that's just the way it goes
And if it's anything, know that I will never forget you
And if today it hurts, tomorrow it won't even know'Cause I don't really want to work it out
No and I can only wonder what you're all about
We talk and talk and it's all my fault and still I know it's true
That I don't know much but I know I don't need youAnd everything's a little better
Everything's a little better without you
Yeah everything's a little better
Everything's a little better without you
Oh everything's a little better
Everything's a little better without you
Yeah everything's a little better
Everything's a little better without you'Cause I don't really want to work it out
No and I can only wonder what you're all about
We talk and talk and it's all my fault and still I know it's true
That I don't know much but I know I don't need you'Cause I don't really want to work it out
No and I can only wonder what you're all about
We talk and talk and it's all my fault and even if you're all I got
I know, I know, I know I don't need you
