

Amateur Hour

Sparks

The lawns grow plush in the hinterlands
The perfect little setting for the one night stands
The drapes are drawn and the lights are out
It's the time to put in practice what you've dreamed about Well she can show you what you must do
To be more like people better than you Amateur hour goes on and on
When you turn pro you know she'll let you know
Amateur hour goes on and on
When you turn pro you know she tells you so Girls grow tops to go topless in
While we sit and count the hairs that blossom from our chins
Our voices change at a rapid pace
I could start a song a tenor and then end as bass Choose your partners everyone
If you hesitate the good ones are gone Amateur hour goes on and on
When you turn pro you know she'll let you know
Amateur hour goes on and on
When you turn pro you know she tells you so Dance laugh wine dine and talk and sing
But those cannot replace what is the real thing
It's a lot like playing the violin
You cannot start off and be Yehudi Menuhin So amateur hour goes on and on
When you turn pro you know she'll let you know
Amateur hour goes on and on
When you turn pro you know she tells you so Amateur hour goes on and on
When you turn pro you know she'll let you know
Amateur hour goes on and on
When you turn pro you know she tells you so
