

Slide Away

Michael Hutchence

Are you gonna wake again?
Are you gonna take it down?
Oh babe, I don't wanna deal it
Oh, make it alright
Gimme some, my love

Away, away, away I just wanna slide away and come alive again

I just wanna slide away and come alive again
I will see that love again, and find a life again
I just wanna slide away and come alive again

I wanted to let it go
Just couldn't let it go
I wanted to let it go

Just couldn't let you go I would catch you

(Just couldn't let you go)

I'd catch you as you fall

(Just couldn't let it go)

I would catch you

(Just couldn't let you go)

I'd catch you if I heard your call But you tore a hole in space

Like a dark star, falls from grace

You burn across the sky

And I would find you wings to fly

And I would catch you

I would catch your fall

I just wanna slide away and come alive again

I just wanna slide away and come alive again

I will see that love again, and find a life again

I just wanna slide away and come alive again
