

# Glory

**Liz Phair**

He's got a really big tongue  
It rolls way out  
Snaking around in the club  
It slicks you downScratching his face like a bum  
He pulls you back  
Circa, nineteen eighty-one  
He pulls you backYou are, you are shining some glory  
You are shining some glory on me, on meYou are, you are shining some glory  
You are, you are shining some glory on me
