

Waveforms

Bachelorette

Waveforms, reach through my mind
And take me back there tonight
The reverb I feel, it signals to me
It's never been far from sight
A long time ago, my heart was in two
It's written in black and whiteThe rhythm machine through the smoke and the screen
Their heads in the hills tonightOh you wanna know why
All these rivers run dry
And when I see you again
I see it there in your eyesRadar, scanning my mind
Lost in the clouds above
The rattle of drums, the click of my thumb
Their eyes in the hills belowOh you wanna know why
All these rivers run dry
And when I see you again
I see it there in your eyesOh you wanna know why
All these rivers run dry
And when I see you again
I see it there in your eyesTouch it, break it, shake it yeah
Take it apart and break it yeah
try to rearrange it yeah
couldn't recreate it yeahTouch it, break it, shake it yeah
Take it apart and break it yeah
try to rearrange it yeah
couldn't recreate it yeahTouch it, break it, shake it yeah
Take it apart and break it yeah
try to rearrange it yeah
couldn't recreate it yeah
