

Fade Away

Morgan Page

Whoa, whoa
Midnight falls
But darkness seems the same
The blinding lights are all alone
Crowded thoughts surrounds my past
Shadows lead me back home
Fade away
Even when you fall asleep at night
Dreams will calm your soul
I'll be out there on the boulevard
Watching faces
(fade away)
I need a bit of focus
(fade away)
I need a bit of focus
(whoa, whoa)
I need a bit of focus
(fade away)
I need a bit of focus
It's all we lack
It's leading to its own time
Whoa, whoa
I've been waiting so let me?

I'm alone
In your way
Do you think you need to care?
I know you so well it's easy
You leave it anywhere
Even when you fall asleep at night
Dreams will calm your soul
Wishes that you still keep burning bright
How you're working to get it go
I need a bit of focus
(Fade away)
I need a bit of focus
(Whoa, whoa)
I need a bit of focus
(Fade away)

I need a bit of focus

It's all we lack

Fade a

Fade away

Whoa, whoa

Well?

Whoa, whoa

I don't know when you let me down

Fade away

Whoa, let me down

Fade away

I don't know when you let me down

Well?
