

# The Spinning Heart Of The Yo-Yo Lobby

## United Nations

It's easy as 1-2-3-4  
We've got a lot but we want more  
Exploit the wage on the stage of the third world  
Entertainment!  
For fun and profit.  
For parents and screaming children!  
They want to play the game for the coming age:  
"Yo-Yo Fuck You"  
Can you see what I've been thinking?  
If it's a sport then why is it that  
There's no rules?  
It was fire engine red and it spun from a thread.  
It was my favorite toy that I took from a boy  
Who I put in his place when I smashed in his face  
It's so fun to do tricks with this thing  
when there's blood on your hands  
In the morning I thought I had lost it.  
We frantically searched but it's ok,  
it's no sweat, just a fucking kids game.
