Will But You Won't

Keith Richards

You will but you won't, you do but you don't
The more that you say, you don't do it anyway
You know that you don't
Ooh, you've got it in for me, you always did anyway
It's a sin to me
Guilty or not, it's time that I got myself out of here
Caress me baby, slap me my face
Ooh, don't hurt me baby
You're big but you're bad, like something I had
Sensitive words they get on my nerves, it's driving me mad
You made a mess of my heartYou will but you won't, you do but you don't
You will but you won't, you do but you don'tI need your hands running over me
I like the way that it feels - without a sound, hey baby help
I need your hands running over me
I like the way that it feels
I need your hands running over me
I like the way that it feelsYou will but you won't, you do but you don't
You go yes and it's no
I don't till I know where and which way to go
Put a gun to me and to the way that I feel
