

Inside Outside Inn

KIX

I love your shy, innocent way
You put me in my place in the early day
Staring into your eyes
Midnight goodbyes I love all the ways you give (yeah, yeah, yeah)
Never been an act, just the way you live (yeah, yeah, yeah)
I'm sorry for all the lies and making you cry
and your ability to forgive and forget and still lovin me I love you inside outside inn (2X)
My whole world has changed
Your beauty will never, never ever fade I love makin love to you
and those two kids you talked me into
A roller coaster ride, side by side
For yesterday and today, I wrote this song just to say I love you inside outside inn (2X)
My whole world has changed
Your beauty will never, never ever fade Starin' into your eyes, never sayin' goodbye
I'm happy as could be knowin that you'll grow old with me I love you inside outside inn (2X)
My whole world has changed
Your beauty will never, never ever fade I love you in so many ways
yeah, yeah, yeah...
