You Know The Story

OZMA

Check her out, she's got looks I've only seen in storybooks
I had one once, read it through, now it's long overdueI asked her out, she gave me looks I've only seen on mean old crooks
I had my chance and now I'm through it's been so long, I'm overdueWhat's so wrong with me and you?
It's been so long, I'm overdue
I'm overdueReturn me back to youAstronaut, cosmonaut, send us up, best you've got
Once I'm out way too far, I'll beam you shots from the stars
As long as you promise to return me back to youYou know the storyYou know the story
