Bailamos

Marcos Hernandez

Girl the way you move it to the bar
Up in the club to get your drink
And when the margarita hits your sexy mouth
I can't help but think could you be looking at me
While you softly lick your lips
And damn I think its sick all the while she moved her hips
I'm hypnotized by the way her eyes looked right through mine
And she grabbed my hand and led me into the night
She was screaming bailamos with her body up so close
She was out of control chica bailamos
Mami dame un beso, can I be your primero?
Asucarita you're so cold chica bailamos
I can see the sweat glistening off your sexy body girl
Nonchalantly bumping up against me
All because you want be in my world
And everybody in the club
At the afterparty's getting rowdy
And I see you and I need you
And I want to get with you
I'm hypnotized by the way her eyes looked right through mine
And she grabbed my hand and led me into the night
She was screaming bailamos with her body up so close
She was out of control chica bailamos

Mami dame un beso, can I be your primero?
Asucarita you're so cold chica bailamos
Chica bailamos
Chica bailamos
Chica bailamos
Feel the bump everyone we gots to party
Feel the funk rush the dance floor lets get started
Feel the bump everyone we gots to party
Feel the funk rush the dance floor lets get started
Chica bailamos
Chica bailamos
Chica bailamos
She was screaming bailamos with her body up so close
She was out of control chica bailamos
Mami dame un beso, can I be your primero?

Asucarita you're so cold chica bailamos
Chica bailamos
Chica bailamos
Chica bailamos
Let's dance
Uhh
Chica bailamos
