

Everyone (Moving On)

Evermore

I believe what you say
I believe what you do
I believe what you do is for the good of everyone I didn't think I could change
I thought I'd always stay the same
I' wide awake on the train back to you
The only one It's the same everyday now, moving on
And though I don't know the way now, I walk on I've found a new way to feel
I've got an old wound to heal
Now I wake on the ground
And hear the sound of everyone Somebody please, won't you show me the way? And though I don't know the
way now, I walk on
It's the same everyday no Moving on...
