Oxidizer

Xyn

The smallest part
a single spark
can lay this world in ashesThe fire inside
burns my mind
set to destroy the massesBurn
this
world
downConsuming tide
floods my mind
filling my soul with rageJust one spark
in my heart
to damn this world in flamesMy burning fate
seething with hate
to set this world on fireAll will burn
nothing spared
from my incineration
Decimate
to devastate
path of annihilationMy burning fate
seething with hate
to set this world on fireSet this world on fire
Wake of the Oxidizer
