

# JOOTD (feat. Monica)

## Young M.A.

It's just one of them days  
When I wanna be all alone  
It's just one of them days  
When I gotta be all alone  
It's just one of them days  
When I wanna be all alone  
It's just one of them days  
When I gotta be all alone  
It's just one of them days Airplane mode on these hoes  
That's on the regular  
Somebody's girlfriend blowing up my cellular  
If I got head from ya I'm deadin' ya  
Hit that decline button  
I don't wanna be bothered baby, my mind running  
I don't mind hitting that block button  
I'm quick to block something  
I'm quick to block a thot  
Yeah I flop a lot, don't care if she hot or not  
'Cause hoes get ignored every day B  
Man she'll be aight  
You keep worrying 'bout me, girl you need a life  
I got this blunt, now I need a light  
No I don't need a wife  
I'm moody, I don't want no groupies  
I ain't in the mood for no coochie  
I don't wanna talk to Kim, Jessica, and Julie  
They don't really love me, they just wanna do me and use me  
It's just one of them days  
When I wanna be all alone  
It's just one of them days  
When I gotta be all alone  
It's just one of them days  
When I wanna be all alone  
It's just one of them days  
When I gotta be all alone  
It's just one of them days Nike slippers and sweatpants  
Bitch I'm comfortable  
If I don't really fuck with you then I'm dubbing you  
I'm just stacking this cheese up like a Lunchable  
It's just, one of those day-ay-ay-ays

Just one of those days  
She text me like why you playing these games?  
You know I'm stuck in my ways, why you seem so amazed?  
Let me be in my zone, let me be on my own  
Now she in her feelings like fuck it go be alone  
Why you doing all that, you ain't even all that  
Put her on the blocked list, now she can't call back  
I can never fall off, bitch I just fall back  
Thought I was the one, I'm like nah, why you thought that?  
I just let her argue with herself, I don't talk back  
Since I ain't the one  
Now girl are you finished or you done? (Are you done? are you dumb?)
