One In Seven

Soulive

Build your hopes behind the scenes
Break between your plans and schemes
Save yourselves, escape from me
Brace against the coming wind
You're one in seven but you're closer than me
Been left wide open, shows we're nearer than before
Clear the way so I can breathe
Make a space so I can see
Hold the strength that's not in me
Beneath contempt or so it seems
You're one in seven but you're closer than me
Been left wide open, shows we're nearer than before
