

# One In Seven

## Soulive

Build your hopes behind the scenes  
Break between your plans and schemes  
Save yourselves, escape from me  
Brace against the coming wind  
You're one in seven but you're closer than me  
Been left wide open, shows we're nearer than before  
Clear the way so I can breathe  
Make a space so I can see  
Hold the strength that's not in me  
Beneath contempt or so it seems  
You're one in seven but you're closer than me  
Been left wide open, shows we're nearer than before
