Go Go Go

J. Futuristic

well i was stranded on the ocean
i was drowning there at best
so i came unto your desert
there i tried to bide it
but i got so excited
i can get you what you wanted
i can get you what you need
you don't care if you don't show up
cause I'm not in need you're such a friend indeed
now it's time that we we go go go go
now it's time that we we go go go go
we go go go go
and i got bones inside my body
you've got eyes inside your head
and if you saw the things I'm writing
you would hate my guts
and you probably think I'm nuts
and i will call you when i wanna
i will call you when i can

i don't care if you get lonely
i don't care that you you had me up all night
now it's time that we we go go go go
now it's time that we we go go go go
we go go go go
we go go go go
well it was big and white
and on your shoulder
and i could see your throat
and there was no one home
and it was colder
and i could hear you moan
and there was no one here to talk about it
and i was in the mood
and so we go go go go go go go
now it's time that we we go go go go
now it's time that we we go go go go
we go go go go
we go go go go

we go go go go
