

# Keep Watch for the Mines

## Dashboard Confessional

Don't act like you've been silent  
I know how you spread that web of contradictions  
Wide like so much cover fines Keep watch for the mines  
Keep watch for the mines Be careful who you wave that tongue at 'round here  
I've seen smarter acts than yours get disappeared  
If you keep swinging that knife all over this town  
You are bound to get your own back stabbed Keep watch for the mines  
The concealed dangers  
The traps and the chords of the wires  
With their sharp razors The ditches and the trenches  
And the smiles of the gravediggers  
And if you're told the answer needs no questioning  
The answer is a lie Keep watch for the mines  
Keep watch for the mines  
Keep watch for the mines  
(Will they bleed everyone out?  
Will they bleed everyone out?) Keep watch for the mines  
(Will they bleed everyone out before they die?)  
Keep watch for the mines  
(Will they bleed everyone out?  
Will they bleed everyone out?) Keep watch for the mines  
(Will they bleed everyone out before they die?) Keep watch for the mines  
The concealed dangers  
The traps and the chords of the wires  
With their sharp razors The ditches and the trenches  
And the smiles of the gravediggers  
And if you're told the answer needs no questioning  
The answer is a lie Keep watch for the mines  
Keep watch for the mines
