Soul Searching

Cotton Ferox

I'm looking for something, can't find it anyplace
It's there in the distance, starin' me in the face
Right in front of me, but it's way beyond my reach
And I know that I must try to find it
Doin' some soul searchin', lookin' for myself
Soul searchin', Lord, I need a little help
Soul searchin' 'cause time has slipped away
There's a dream I left behind in better days
The start of the story is not where it all began
So many directions, all of them a part of the plan
I've heard too many voices sayin', "This is the way to be free"
But I know where I can find the answers
Doin' some soul searchin', lookin' for myself
Soul searchin', Lord, I need a little help
Soul searchin' 'cause time has slipped away
There's a dream I left behind in better days
Feeling the changes, there's something in the wind
Gonna try to discover life's romance again
Lookin' for a loser who tore it all apart
Gonna take another look inside my heart
Doin' some soul searchin', lookin' for myself
Soul searchin', Lord, I need a little help
Soul searchin' 'cause time has slipped away
There's a dream I left behind in better days
