Everything Changes

Little Big Town

I saw you before you saw me Yeah, it really took me back Can't believe how long it's beenTook you awhile to recognize me Oh, imagine that When we were so close back thenNo, nothing stays the same Love, oh it slips away, it slips awayEverything changes, doesn't it baby? It's amazing how time flies Turning the pages of yesterday In only the blink of an eye Everything changes, everything changes, everythingSomewhere I still have the picture You were in that party dress I remember dancing slow (Hey, I remember dancing slow)Thought those days would last forever How soon we forget And how far away they goNo, nothing stays the same Love, oh it fades away, it fades awayEverything changes, doesn't it baby? It's amazing how time flies Turning the pages of yesterday In only the blink of an eye Everything changes, everything we try to hold it in our hands But love falls through like grains of sand One day it's there and then it's gone Gone, it's gone, goneEverything changes, doesn't it baby? It's amazing how time flies Turning the pages of yesterday In only the blink of an eye Everything changes, everything changes Everything changes, everything changes, everything
